NUMIS SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

Note 1 - Description of Business:

Numis Securities, Inc. (the "Company"), a Delaware corporation incorporated on October 17, 2003, is a wholly owned subsidiary of Numis Securities Limited ("the Parent"). The Company commenced its operations on October 23, 2003, and received its license from the Securities and Exchange Commission (the "SEC") on February 18, 2004. The Parent is in the investment banking and institutional stock-brokerage business, and is a wholly owned trading subsidiary of Numis Corporation Plc ("Plc"). Plc is a listed United Kingdom stock company traded on the Alternative Investments Market of the London Stock Exchange ("LSE").

The Company is a broker-dealer registered with the SEC and a member of the Financial Industry Regulatory Authority ("FINRA"). The Company, which operates solely in New York, was established to provide securities brokerage services to United States customers trading in United Kingdom securities. The Company clears United Kingdom and Irish listed securities through its UK Parent company. The Company holds no customer accounts. Other securities are cleared through a separate clearing broker, Pershing LLC ("Pershing").

Note 2 - Significant Accounting Policies:

Basis of Presentation

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States.

Cash and Cash Equivalents

The Company considers all highly liquid instruments and certificates of deposits with original maturities of less than three months, to be cash equivalents. Cash and cash equivalents consist of unrestricted cash balances held with two major financial institutions. Interest-bearing balances are insured by the Federal Deposit Insurance Corporation ("FDIC") for up to \$250,000 per institution. The Financial Services Compensation Scheme ("FSCS") provides insurance of up to £75,000 (approximately \$97,328 at September 30, 2016) for deposits in the United Kingdom. From time to time, the Company's balances may exceed the limits of the FDIC and FSCS; however, the Company believes that its credit risk exposure is limited due to the high credit quality of the institutions holding its cash. At September 30, 2016, this excess was approximately \$8,017,000.

Fixed Assets

Fixed assets consist of office equipment, furniture, technology equipment, and leasehold improvements stated at cost, less accumulated depreciation and amortization. Depreciation is computed on a straight-line basis over the shorter of the lease term or useful lives of the assets. Estimated useful lives are three years for office equipment and technology equipment, and seven years for furniture. Amortization of leasehold improvements is computed on a straight-line basis over the shorter of the useful life or the lease term.

NUMIS SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

Note 2 - Significant Accounting Policies (Cont'd):

Receivables and Deposits with Broker

Receivables and deposits with broker represent payments receivable from customers for research services provided by the Company and cash balances on deposit with, and commissions and interest receivable from, the Company's clearing broker.

Allowance for Doubtful Accounts

The Company estimates the allowance for doubtful accounts based upon a review of outstanding receivables and historical collection information by customer. Normally accounts receivable are due within 30 days after the date of the invoice. Receivables more than 90 days old are considered past due. Accounts receivable are written off when they are determined to be uncollectible. The Company considers all accounts receivable at September 30, 2016 to be collectible and no allowance for doubtful accounts is deemed necessary at September 30, 2016.

Net Receivable from Parent and Broker for Unsettled Regular-Way Trades

These regular-way trades are subject to standard settlement of trade date plus three days and the balance is approximately \$120,000 as of September 30, 2016.

Concentration of Credit Risk

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks and other financial institutions. The Company does not require collateral or other securities to support financial instruments that are subject to credit risk. In the event counterparties do not fulfill their obligations, the Company may be exposed to credit risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty. As of September 30, 2016, the Company believes it was not exposed to such risk. During the current year, no customer accounted for 10% of total revenues.

Fair Value Financial Instruments

ASC Topic 825, *Financial Instruments*, requires disclosing fair value to the extent practicable for financial instruments which are recognized or unrecognized in the Statement of Financial Condition. The fair values of the financial instruments are not necessarily representative of the amount that could be realized or settled, nor does the fair value amount consider the tax consequences of realization or settlement. For certain financial instruments, including cash and cash equivalents, receivables and deposits with broker, receivable from parent and broker for unsettled regular-way trades, net, security deposit and other, accrued professional fees, accounts payable and accrued expenses, the fair values were determined based on the near term maturities of such obligations.

NUMIS SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

Note 2 - Significant Accounting Policies (Cont'd):

Deferred Rent

Rental expense is recorded ratably over the term of the lease, on the straight-line basis, which results in deferred rent payable. As of September 30, 2016, the Company had deferred rent payable of \$61,221.

Commissions

Commission revenues and related expenses are recorded on a trade-date basis as securities transactions occur.

Research Income

In addition to brokerage commissions, the Company earns compensation in the form of direct payments for provision of third party research, and other brokerage services. Revenue is recognized upon direct receipt of payment, including funds received between the end of the fiscal year and the date the financial statements are issued for services provided prior to the end of the fiscal year.

Foreign Currency Transactions

The Company's reporting and functional currency is the U.S. dollar. Certain of the Company's revenues earned and expenses incurred are denominated and settled in foreign currencies.

The Company's assets and liabilities denominated in a foreign currency are translated using exchange rates at the end of the year. Revenues and expenses are translated at average monthly rates for the year. The impact of translation gains and losses on assets and liabilities is included as a component in the Statement of Operations.

Income Taxes

The Company accounts for income taxes in accordance with current accounting standards. Deferred tax assets and liabilities are provided using enacted tax rates in effect for the year in which the differences are expected to reverse. Valuation allowances are established to reduce deferred tax assets to amounts that more likely than not will not be realized.

The Company accounts for certain uncertainties in the accounting for income taxes utilizing a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. The amount recognized is measured as the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement.

NUMIS SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

Note 2 - Significant Accounting Policies (Cont'd):

The Company's income tax returns are subject to examination for three years from the date filed or the due date, whichever is later. The Company files income tax returns in the US jurisdiction, New York State and New York City. The returns for fiscal years ended September 30, 2013 through 2016 are open for examination as of the date of these financial statements. If any, the Company records interest and penalties in the other expense caption of the Statement of Operations.

Use of Estimates

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expense during the period. These estimates and assumptions are based on judgment and available information, and, consequently, results could be materially different from these estimates.

Indemnifications

In the normal course of business, the Company indemnifies and guarantees certain providers, such as clearing and custody agents, trustees and administrators, against specified potential losses in connection with their acting as an agent of, or providing services to, the Company or its affiliates. The Company also indemnifies some clients against potential losses incurred in the event specified third-party service providers, including subcustodians and third-party brokers, improperly executed transactions. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these agreements and has not recorded any contingent liability in the financial statements for these indemnifications.

Share-Based Compensation

Certain employees of the Company are permitted to participate in Plc's Restricted Stock Plans for Employees of Numis Securities, Inc. ("the plans"). The plans are accounted for in accordance with current accounting for share-based payments which require companies to recognize an expense for stock-based compensation in the Statement of Operations. The Company has recorded compensation expense on a straight-line basis over the vesting period of the awards, with the offset to additional paid-in capital, as the obligation to issue the shares will be satisfied by Plc as of September 30, 2016, and for all future years.

Note 5 - Related Party Transactions:

In the course of its business, the Company acts as agent for the Parent's clients. In return for these services the Company receives commission revenues and research revenues from the Parent in accordance with terms of the allocation methodology established in the July 2004 Transfer Pricing Agreement, as amended in November 2007. The allocation is primarily linked to the level of work performed by the Company. For the fiscal year ended September 30, 2016, \$1,100,241 of commissions revenue and \$2,195,206 of research income were earned under this agreement, which are included in commissions and research income, respectively, in the Statement of Operations.

NUMIS SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

Note 5 - Related Party Transactions (Cont'd):

In accordance with the intercompany Transfer Pricing Agreement, the Parent receives a service fee for each transaction that is recorded by the Company based on the Parent's detailed cost analysis on services performed. Services performed include equity administration and support, equity research, broking, and corporate services. For the year ended September 30, 2016, the intercompany service fee expense under such agreement was \$4,377,357, which is included in the Statement of Operations.

At September 30, 2016, a capital contribution of \$628,088 was recorded for the shares to be issued by Plc to satisfy the share compensation expense under the restricted stock plans. In addition, future monthly accruals of restricted stock plan compensation will also be recorded as capital contribution.

As of September 30, 2016, the Company recorded return of capital and dividend of \$3,500,000 and \$1,000,000, respectively, to the holder of the outstanding common stock of the Company by making an offsetting reduction of the intercompany receivable from the Parent.

As of September 30, 2016 the Company has a payable balance to the Parent of \$478,899 in relation to these related party transactions. It is expected to be paid within the next twelve months.

Note 6 - Clearing Fee Agreement:

The Company has an agreement with its clearing broker, Pershing. As part of the agreement, the Company maintains a deposit account with the clearing broker and is subject to certain termination fees in the event the agreement is terminated by either party without cause upon ninety days prior notice. The termination fee is defined in the agreement as a reasonable and determinable amount agreed upon by both parties. The Company does not intend to terminate the agreement and as such has not recognized any liability or expense related thereto.

Pursuant to the terms of the agreement between the Company and the clearing broker, the clearing broker has the right to charge the Company for losses that result from a counterparty's failure to fulfill its contractual obligations. At September 30, 2016, no such failure has occurred and the Company has recorded no liabilities with regard to the right.

	1,484,240
Less: Valuation allowance	<u>(1,484,240)</u>
	<u>\$ -</u>

NUMIS SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

Note 7 - Income Taxes (Cont'd):

The effective tax rate differs from the statutory federal tax rate primarily due to the change in the valuation allowance. The Company also has available net operating loss carry forwards amounting to approximately \$1,100,000 for federal income tax purposes, approximately \$1,571,000 for state income tax purposes and approximately \$1,505,000 for local income tax purposes. These net operating loss carry forwards expire on September 30, 2031.

Deferred income taxes reflect the net tax effects of temporary differences between the financial reporting and tax bases of assets and liabilities. These temporary differences result in taxable or deductible amounts in future years and are measured using the tax rates and laws that will be in effect when such differences are expected to reverse. For the year ended September 30, 2016, the Company had a net operating loss and therefore no income tax liability. At September 30, 2016, the Company has recorded a deferred tax asset of \$1,484,240. The deferred tax assets primarily relate to temporary differences associated with the deductibility of depreciation and amortization, share plan accrued expenses, allowable gain and losses on conversion of currencies, net operating losses carry forwards and deferred rent. A valuation allowance is recognized against deferred tax assets if it is more likely than not such assets will not be realized in future years. The ultimate realization of a deferred tax asset is dependent upon the generation of future taxable income. Due to uncertainty of earning future taxable income against which the deferred tax assets could be utilized, a valuation allowance for the full amount of the deferred tax asset has been recorded. In 2016, the valuation allowance increased approximately \$137,597. The Company had no tax liability for uncertain tax positions as of September 30, 2016.

Despite the net operating loss, the Company is subject to New York State and City taxes based on capital. During the fiscal year ended September 30, 2016, the Company recognized \$24,307 of state and \$19,505 of city capital taxes, which are included in other expenses, in the Statement of Operations.

Note 8 - Restricted Stock Plans:

a) Details of restricted stock plans

During the year ended September 30, 2006 the Company had approved a plan (USRSP #1) under which selected employees were awarded a share purchase option to buy Plc stock on the LSE. During the year ended September 30, 2008 the Company approved and made further awards pursuant to two additional plans, USRSP #2 and USRSU #1.

The terms of the USRSP #2 plan are similar to the USRSP #1 plan: if the purchase option is exercised within the allotted exercise period, the shares are purchased at the price set on the grant date and the employee is allocated a like number of matching shares at no further cost to the employee. Both matching shares and the purchased shares are then subject to vesting periods. For USRSP #1, this vesting period is five years; for USRSP #2, there is a graded vesting schedule with 33.33% of the shares awarded vesting on each of the third, fourth and fifth anniversaries of the relevant share purchase date. For both plans unvested matching shares are forfeited in the event of voluntary termination or termination for cause.

NUMIS SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

Note 8 - Restricted Stock Plan (Cont'd):

If a participant's termination occurs as a result of involuntary termination of employment, then an earned portion of the shares previously awarded to that participant shall become vested; and the unearned portion shall be forfeited. Under the terms of both plans, employees may finance the purchase of shares with a loan from Plc with repayments, including interest, made over the vesting period. In the event of non-payment of the loan, matching shares and the purchased shares that relate to any unpaid loan balance are forfeited. Dividends that would otherwise be earned on the matching shares under both plans are credited to the recipients' balance of matching shares in the form of dividend equivalent units (DEUs) as dividends fall due.

The USRSU #1 plan differs from the USRSP #1 and USRSP #2 plan; in that in all cases but one, shares are awarded to employees in the form of restricted stock units, that will vest over a three year graded vesting schedule on the first, second, and third anniversaries provided that the employee remains employed with the Company. In the case of some of the issuances in 2013 and 2014, the vesting period was extended to four years with awards vesting in three equal tranches on the second, third, and fourth anniversaries. There is no requirement to purchase shares and consequently there are no matching shares. The awards under the USRSU #1 plan do not qualify for DEUs.

Both USRSP #1 and #2 plans are now fully vested in the fiscal years ended September 30, 2012 and September 30, 2015 respectively. No further awards will be made under either plan.

The USRSU #1 plan remains current with awards and vestings taking place during the financial year.

b) Awards during the current fiscal year

USRSU #1

There were 511,278 restricted share units outstanding at the beginning of the current fiscal year that had been awarded under USRSU #1, with a weighted average price of \$2.72.

A number of awards were made during the year: 106,100 shares in January 2016 under the 3 year vesting schedule; 313,791 on the same date in January 2016 under the 4 year vesting schedule; and 48,498 in June 2016 with vesting dates in January 2018, 2019 and 2020. In total, 468,389 shares were offered and issued at a weighted average price of \$3.03.
